SKILLS

READING

- 1 Read the text and choose the correct word for each space.

If we don't act fast ...

The world is in danger. We know about pollution, the greenhouse effect and acid B. We know that some species in the animal and vegetable kingdom are on the verge of (1)____. Can we do anything to help save the planet?

(2)____ you want to get involved in a project or (3)____ to save the planet, you can find groups and organisations who are looking for new members.

On this website you (4)____ read about the five programmes launched by the Foundation for Environmental Education (FEE) in 1981: Blue Flag, Eco-Schools, Learning about Forests, Green Key, and Young Reporters for the (5)_____.

Are you a secondary school student? Then you can (6)____ the Young Reporters for the Environment (YRE). Just follow this link: www.youngreporters.org

You (7)____ find that the programme develops at two levels, local and international. Students explore an environmental problem in their location and study its scientific implications and (8)____ solutions. Then they raise awareness in the local community by reporting it through the local press, (9)____ and television. At this point they can go global by contacting other young reporters through the Internet and (10)____ their information.
